SPOKE TO STUDENTS

WEDNESDAY AT NORMAL ON "THE MOTIVE IN EDUCATION."

AN INTERESTING TALK

Prof. Richardson of the Normal Says Pupils Carve Work Along Some Lines, But Dislikes Others.

Prof. Richardson of the department of education of the Normal made a very interesting talk in chapel Wednesday morning on "The Motive in Education."

In introducing his subject he made the illustration that people do not really enjoy eating unless they are hungry, and rebel at being made to eat something which they do not like. The same thing is true in education. The pupils crave work along certain lines, and thoroughly dislike other things. Therefore it is necessary for the teacher to present the essential subjects in such an attractive way that the child's personal feelings will be overcome.

Briefly tracing his outline he spoke first of the kindergarten schools, in which the work consists of games and such things that are to the children really play. The grammar schools come next, and present a more difficult problem to the teachers as the pupils' interest is largely in the things outside the school room. And this is as it should be, for nature uses this period in the child's life for growth and development, requiring outdoor exercise and amusements.

The interest of the high school students is all self-centered. They are studying themselves, feeling for new things, trying everything for the purpose of selecting that which is most suitable for them. Having, to a large extent, found their interests by the end of the high school course, the students fill their college life with social interests, and then go to the universities, where the vocational interests develop them along their respective line of business.

In speaking further of the manner in which work is done, Mr. Richardson said that the drudgery of work makes a toiler, and a toiler is a slave The man who works with interest enjoys his work and is a free man, but the man who does his work spontaneously and intuitively makes that work play, and a player is an artist. And the artist, because of his love for his work and the spirit in which he does it, gives the most to the world.

Had Guests from Ohio.

Misses McCann of Zanesville, O., spent Tuesday in Maryville as the guests of Mr. and Mrs. O. L. Holmes. The young ladies are teachers in the schools of Zanesville and are nieces of Prof. R. E. McCann, formerly of Maryville. They are taking a vacation trip of a month in towns of Iowa and Missouri and stopped in Maryville at the request of their uncle, who had told them many fine things about Maryville. They enjoyed their day's visit in the city and a ride over the city, and left Tuesday evening, declaring that "the half had not been told." They said Maryville was the prettiest town that they had visited.

CAPITOL BONDS WIN

REPORTS SHOW A SAFE MAJORITY FOR THE STRUCTURE.

5 TO 1 IN NODAWAY CO.

Maryville Gives a Big Majority, as Did Also Some of the Other Precincts —Reports from Over the State.

Missouri voted Tuesday to build a new state capitol. The vote was not as heavy as it might easily have been, and the returns are far from complete, but on the returns available early this morning there does not seem to be a remote chance that the strong lead for the bonds can be upset.

Returns from sixty-six counties and the city of St. Louis, complete and incomplete, give 91,449 for the bonds and 23,741 against the bonds. The returns from the larger cities are complete and a few of the counties, particularly in Western Missouri, are complete. Keeping in mind that one vote "no" counts as much as two votes "yes," the fact that there is a margin of nearly four to one for the bonds with much more than half the total vote reported means that while the majority in favor of the bonds will be reduced somewhat, they hardly can be defeated by any returns yet to be received.

The voting of these bonds probably will end for all time the talk of capital removal, which has been the nightmare of Jefferson City people for a generation. Only last winter there were men in Jefferson City worrying over the possible removal of the capital who could not remember when their fathers' faces did not grow long and solemn at the suggestion that the legislature was getting ready to move the capital elsewhere. Jefferson City can grow now and be sure that this generation will not see the capital located in some rival town. It needed that kind of waking up and out of its fights to hold the capital Jefferson City has done a good deal to make itself a modern city of the smaller class. By the time the capitol is finished it ought to be a city of 20,000 or more population.

Very little interest was manifested in the capitol bond election held in the county Tuesday, only a light vote being cast. The total vote cast in the county was 1,989, 1,657 being for the bond issue and 332 against, or 5 to 1 in favor.

In Polk township and Maryville, a vote of 463 for and 94 against was polled.

Monroe township had the largest vote against the proposition, there being 59 votes against as to 96 for. We understand the reason for the vote in Monroe township was due to a letter recently issued over there against the bond issue.

In White Cloud, both north and south precincts, only one vote was cast against the issue.

In Washington, East precinct, eleven votes were cast, all being for the bond issue.

The vote by precincts over the county follows:

	Yes	No
Atchison	75	8
Hopkins	94	17
Independence South	63	6
Independence North	31	5
Jackson	96	21
Jefferson, North	47	4

Washington, West	65	12
Grant	94	9
White Cloud, North	35	1
White Cloud, South	21	1

Polk D, First Ward	99	20
Polk C, Second Ward	92	16
Polk B, Third Ward	124	16

POLITICAL NOTES.

(By Democratic Publicity Bureau.)

President Taft gives the Democrats in congress credit for the reciprocity bill. Sure thing; the only folks working at constructive legislation are Democrats. The Republican statesmen are troubled with the hookworm.

* * *

When divisions Nos. 1 and 2 of the state supreme court adjourned for the summer, division No. 3 refused to take a vacation. The latest opinion handed down by Judge Hadley through his official clerk, the Globe-Democrat correspondent, is that the redistricting of the state into senatorial districts by Roach, Majors and Hadley will not stand hitched, because the governor refused to obey the law. That is pretty rough on Herbert.

* * *

The American housewife, because of a needless tariff, pays tribute to the sugar trust of two cents on every pound of sugar she buys at the corner grocery, according to Claus Augustus Spreckel, president of the Federal Sugar Refining company, and he ought to know. And remember, please, that extortion is extracted from the pocket of the consumer by the grace of the Republican party.

* * *

The Democrats make good again. This time they put a publicity bill through congress that really amounts to something. Under the terms of this measure contributions and expenses of all general elections must be published by the individual or committee before the election, not afterward. Candidates for either branch of congress cannot spend more than 10 cents for each voter in his district or state, and a maximum of $10,000 is placed on senatorial candidates.

NO MORE DANDRUFF.

The Koch Pharmacy Sells the Remedy That is Guaranteed to Kill All Dandruff Germs.

Of course you and every intelligent reader of The Democrat-Forum knows that dandruff is caused by a germ.

Dr. Sagerbund, the great French physician, proved this beyond a doubt.

In order to rid your scalp of filthy dandruff you must kill the germ. There is a hair-dressing called Parisian Sage which is now sold in every town in America, that is guaranteed to eradicate dandruff, stop falling hair, splitting hair and scalp itch in two weeks, or money back.

If you have dandruff get a large 50 cent bottle today and rid yourself of it. Remember that if dandruff germs are not destroyed in time the hair will surely fall out and baldness will follow.

Here's proof of what Parisian Sage has done; it will do more. It is the finest hair grower and hair dressing in the world, and people who use it regularly will never grow bald. Mrs. John Stoner, Evansville, Ind., writes on June 2, 1910:

"I used Parisian Sage and found it very successful; it removes dandruff and gives the hair life. I only used two bottles. I know it is a cure for dandruff."

Large bottles 50 cents at the Koch Pharmacy and druggists everywhere. The girl with the Auburn hair is on every carton.

MAN ENTOMBED IN MINE IS ALIVE

Feasts on Fried Chicken and Jokes With Friends.

NOT YET OUT OF DANGER.

Shaft Will Probably Be Sunk Before Water Has Reached His Face. Fourth Hole Drilled Into Working Penetrates Drift Near Him.

Joplin, Mo., Aug. 2.—Entombed seventy-eight feet below the surface of the earth, facing a possible death from the rapidly rising water in the mine drift, Joseph Clary, the young miner caught by a cave-in at the White Oak mine here, feasted on fried chicken and joked with friends who are waiting for his rescue.

The fourth drill hole put down in an attempt to reach his prison penetrated the roof of the limestone.

"Hello," his brother-in-law, Maurice Grafton, called down the hole when the bits had been removed.

"Hello boys! I'm hungry," came the clear but faint reply.

Then Thomas Clary, father of the entombed miner, hastened to his home where the young man's mother was prostrated from grief and told her the young man was still alive. The news, the doctors say, has saved her life.

From his home the father, one of the oldest prospectors in this district, hurried back to the mine, carrying milk and stimulants, which were lowered on a piece of rope to his son. After drinking these Clary seemed much stronger and remained near the drill hole talking with those at the top.

"See any shines in the drill cuttings?" he questioned, meaning to ask whether the drillers had found any evidence of zinc in cutting the hole through the earth to his prison. He seemed disappointed when told him no one had noticed whether the drill had gone through any ore.

"I haven't worried any, though it has been a long while," he said, "for I knew that you were after me. The water has been rising fast in here and it is about waist deep in some places now. I don't believe it will get much higher, for this is dry ground."

The ground where the mine is located is known as "dry ground" and it has never been necessary to use a pump to keep the water out of the drifts, while work was going on. This fact lends encouragement to those who are working to sink a rescue shaft to the drift. If, however, the shaft is not down to the drift within two or three days it may be too late to bring the young man out alive.

FERRY SINKS: SEVEN DROWN

Vessel Capsizes and Hurls Its 75 Passengers Into Water.

Massena, N. Y., Aug. 2.—Seven persons were drowned in the St. Lawrence river when the ferry steamer Sirus struck a shoal eight miles below this city, capsized and hurled its seventy-five passengers into the water. Four bodies have been recovered.

The victims whose bodies were recovered were: Misses Hattie and Nellie Parker, sisters, of Ogdensburg, Miss.; Miss Ada Dewey and Floyd Hackett, both of Massena.

The identity of three persons who, according to the captain's tally, are missing, is not known.

Women Mob Editor.

Danville, Ill., Aug. 2.—Frank H. Guthneck, editor of the Record, published at Westville, was mobbed by women who were enraged over references made to them and their daughters in his paper. After the editor's spectacles had been smashed he drew a revolver and by threatening to shoot, escaped to the home of a friend, whence he demanded protection from the sheriff. He was escorted to this city by deputies.

NEW PIANO HOUSE HOME INSTITUTION

Two Old Maryville Boys Interested In Distributing House Here
Two Carloads Pianos And Player Pianos Already Received

Maryville at last occupies its rightful place on the piano map of Northwest Missouri. Formerly Nodaway County piano buyers thought it necessary on account of the limited stocks carried here, to go to St. Joseph or Kansas City. Maryville will now become the logical center for this large trade. The new piano store of Field & Lippman, on West Third Street (next door to Alderman's) will carry a stock as complete as any store in the country. While the stock will not be as large as is carried in the big St. Louis six story warehouse, yet the variety will be just as great. Buyers will here find pianos that appeal to every taste, and at prices to suit every pocket book, from $100 to $1200. The Field-Lippman Company, in addition to its Maryville store, has stores in St. Louis and Sedalia, Mo., Dallas, Fort Worth, Austin, San Antonio and Houston, Texas. These numerous stores necessarily dispose of large numbers of pianos, increasing the buying capacity of the Field-Lippman Company to a point very close to manufacturing cost. Maryville and Nodaway County folks will—by buying their pianos at home, from Field-Lippman—make a number of savings; first, freight and drayage; second, time saved in shipment from other cities; third, the very large saving made possible by the big buying power of the Field-Lippman Company. It is our intention to make Maryville the distributing point for all pianos sold in Northwest Missouri and Eastern Kansas. It is our ambition to establish a DISTINCTIVELY MARYVILLE INSTITUTION—an institution that will not only reflect credit on the city, but will spend money with local newspapers and merchants. Our manager, Mr. P. F. Rowlison, will make his home in Maryville, and all other employees, even road salesman, will do likewise. All supplies will be purchased here whenever possible, and every effort made to identify our house with the progress of Maryville. We think such a concern deserves Maryville and Nodaway County patronage, and we believe the people of this city and county will accord us the recognition that a live, up-to-date piano house satisfied with a reasonable profit, is entitled to. Some persons have an erroneous idea regarding the profits made by piano houses in general. Speaking for the Field-Lippman Company, we wish to say that we are highly gratified when our business shows a net profit of 6 per cent.

O. A. FIELD, President.

Oscar A. Field started at the bottom of the ladder as shipping clerk for the company, it being the intention of his father, O. A. Field, Sr., who founded the company, that his son should have an intimate knowledge of every detail and branch of the business, thus proving a worthy successor of himself.

In accordance with this plan Mr. Field served an apprenticeship in every department of the business, and upon his father's death was elected secretary. When the Field-Lippman interests acquired complete control of the business, Mr. Field was chosen for president.

During his occupation of this office he has made many friends among piano dealers, as an evidence of which he was elected vice president of the National Association of Piano Merchants of America at their annual meeting held in Chicago, June 3-10, 1911.

As Mr. Field is only 25 years old he is the youngest man who has ever filled this office.

Mr. Field's career is a striking illustration of the possibilities open to young men in business in this hustling age.

WM. A. LIPPMAN, Sec. and Treas.

William A. Lippman, secretary and treasurer, comes from the old Lippman family of Maryville, being the son of Mr. and Mrs. Charles Lippman. His first business experience was with H. T. Crane, the jeweler, he being afterward connected with the firm of N. Sisson & Son. From there he went to the Vinsonhaler Shoe company of St. Louis, where he obtained business experience of much value.

In November, 1904, he took charge of the credit and collection department of the Jesse French piano company, and from that time on, by successive stages, advanced to his present position of secretary and treasurer.

In addition to these offices Mr. Lippman shares in the management of the company with Mr. O. A. Field, the president.

In addition to his well known executive ability, Mr. Lippman possesses the happy faculty of selecting capable assistants—men who cannot only execute his plans and ideas, but who can do creative work themselves. Every employee of the Field-Lippman Company must do things.

CHAS. F. LIPPMAN, Sales Manager.

Mr. Charles F. Lippman, sales-manager of the St. Louis division, is also a product of Maryville, being a brother of William A. Lippman. He has been connected with the company for about six years and is an able lieutenant to O. A. Field and William A. Lippman.

Mr. Lippman is, like his brother and Mr. Field, a product of the school of experience, having served in every department of the business previous to succeeding Mr. W. A. Lippman as sales manager.

Under the sales manager are some of the cleverest piano sales experts in America, Field-Lippman salesmen being known everywhere as high priced men. It takes executive ability of a high order to handle such an organization, and Mr. Lippman's popularity with the entire force is conclusive evidence of the correctness of his methods.

This well organized and equipped sales force, backed by intelligent executive support is a powerful agent for selling the large output annually contracted for by Field-Lippman.

THE FIELD-LIPPMAN LINE

PIANOS

Field-Lippman	$450
Kranich & Bach	$425
Behning	$400
Hobart M. Cable	$325
Lorraine	$200

THE KRANICH & BACH $425

With the utmost enthusiasm we recommend this superb instrument and welcome its comparison with any other piano made, particularly of the highest class, in which the Kranich & Bach rightfully belongs.

Kranich & Bach have been making pianos for fifty years and there are now in use over 50,000 of their pianos—EVERY ONE GIVING SATISFACTION.

Upon request we will send you a Kranich & Bach catalog. This catalog is fully entitled to your careful consideration, and explains more in detail than an advertisement could, some of the special features of the Kranich & Bach Piano. Special attention is directed to the fact that Kranich & Bach pianos are made by Messrs. Kranich & Bach, under the personal supervision of the two men themselves.

What is the result of this? The production of a perfect instrument made of the best and highest priced materials—made by the highest salaried and most talented workmen, workmen who love their work—the entire process of construction jealously watched over and guarded by those two men, musicians, themselves, with their souls in the work—with a reputation gained by fifty years unserving fidelity to an ideal—fifty years of work—fifty years of achievement.

It would gratify us exceedingly if we could present this superb piano to you in our warerooms. It will more than substantiate all that we have claimed for it.

The terms quoted are net cash, but we will be glad to arrange a payment plan to meet your views. The payment price is the same as the cash price except that 6 per cent interest is charged on deferred payments, the usual banking rate of interest.

The Field-Lippman $450

In the artistic instrument which bears our firm name is embodied the combined expert piano knowledge of this organization of piano men, some of them with a quarter century's experience. The Field-Lippman Piano combines the best material money can buy with the most skilled artisanship obtainable. We give with it a ten-year written guarantee, behind which stands the firm name, reputation and financial standing of America's foremost piano house.

PLAYER PIANOS

Kranich & Bach	$850
Behning	$650
Hobart M. Cable	$700
Lorraine	$450

THE HOBART M. CABLE $325

So many colleges and schools have adopted the Hobart M. Cable that it has come to be popularly known as "The College Piano."

That this compliment is deserved is clearly shown by the letters from the faculty of the numerous colleges where the Hobart M. Cable Piano has been in use.

It will be conceded that a piano that can undergo a year's continuous practice—six hours daily—in a musical conservatory, and retain its original freshness of tone, had demonstrated both tonal quality and soundness of construction.

This was the experience of Dr. Carl Beutel, director of music Union University, Jackson, Tenn., with twelve Hobart M. Cable Pianos—the Doctor's letter in which he highly recommends the Hobart M. Cable is printed in full in their 55-page illustrated catalogue.

There are other letters in their catalogue from college authorities and musicians that are pertinent and interesting; in addition to these the catalogue supplies such complete information regarding the interior construction of the Hobart M. Cable Piano, that the careful reading of these facts will enable one to intelligently consider the merits of this high-class instrument. The catalogue is mailed free upon application.

Opening Sale of Low Priced High Grade Pianos

At certain periods of the year we hold sales of "Rebuilt" or used pianos. These instruments are taken as part payment for new pianos and are sold for the amount we allow for them, to which is added the slight sum expended in putting them in first class condition. We have not had a sale since March, and one of our entire floors is now filled with "Rebuilt" pianos.

It occurred to us that it would be a good plan to introduce ourselves to Maryville folks by a big sale of "Rebuilt" pianos—a **veritable feast of low prices,** and **high grade** pianos.

READ THESE PRICES:

Kimball, Ebony case.....$ 95	**Vose, Ebony case.....$120**	**Windsor, Mahogany case.....$125**	**Starr, Mahogany case.....$100**
New England, Ebony case.....$100	**Schiller, Mahogany case.....$130**	**Jesse French, Mahogany case....$145**	**Richmond, mahogany case.....$180**

Final and convincing proof of the true piano value offered you in our "Rebuilt" pianos. We accept them as part payment for new pianos—AT FULL PRICE PAID—any time within three years. You are cordially invited to call and make the acquaintance of Mr. P. F. Rowlison, our manager—he will be glad to show you the biggest stock of pianos ever shown in Maryville, New and "Rebuilt." If you contemplate buying within a year you should buy now—you will never get a piano cheaper—never get better values. Come whether you buy or not, we will be glad to see you.

We Guarantee Our Player Piano Mechanism Five Years

Other Dealers Limit Their Guarantee to One Year

But we prove the faith that is in us by making our guarantee for five years on any player-piano sold by this house.

This five-year guarantee applies not only to the piano, but to the player mechanism—that is where we differ from every other dealer in America.

Other dealers will guarantee the piano part of your player-piano for five years, but if you read the guarantee offered you will find that the player mechanism is only guaranteed for one year.

Our written guarantee covers both piano and player mechanism for five years.

Since the manufacture of player-pianos has been undertaken by piano builders of known ability the player-piano has advanced from the mechanical to the "Human" class. Such players as the Kranich & Bach Behning, Hobart M. Cable and Lorraine, with their wonderful tempo and phrasing devices, make possible the expression of every human emotion—every hope—every thought—every mood.

You are cordially invited to the largest and most completely equipped music parlors in Maryville. The biggest library in the city of up-to-date ragtime, musical comedy and classical rolls. Our expert demonstrators will be glad to play them for you—we would like you to play them—they are at your disposal.

Your old piano taken as part payment—reasonable terms for the balance—if you cannot call, write for beautiful illustrated catalog, stating which player you are interested in. Every player-piano mechanism guaranteed five years.

Largest Single Piano Shipment Ever Received in Maryville—Two carloads of pianos and player pianos for our new store. These two cars contained twenty-six instruments—convincing proof of our statements that our Maryville store is to be metropolitan in every respect.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair Is First Sign of Age, Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Koch Pharmacy.

BRYAN ATTACKS UNDERWOOD

Commoner Renews Charges that Floor Leader is Protectionist.

ASKS CHANGE IN CAUCUS RULE

Says Record Vote Would Have Made It Impossible for Him to Have Thwarted Speaker Clark's Tariff Reduction Program.

Lincoln, Neb., Aug. 2.—W. J. Bryan says in this week's Commoner:

"The action of Chairman Underwood in opposing an immediate effort to reduce the iron and steel schedule reveals the real Underwood. Speaker Clark and other tariff reformers tried to secure the passage of a resolution instructing the ways and means committee to take up other schedules, including the iron and steel schedule, but Underwood and Fitzgerald of New York, the Fitzgerald who saved Cannon in the last congress, succeeded in defeating the resolution. Mr. Kitchen, a member of the committee, reminded Mr. Underwood that he had told the country that all his worldly goods were tied up in the iron and steel industry and that a failure to report a bill covering that schedule might be attributed to his connection with the business, but even this did not move him.

"Some of the Democrats thought Mr. Bryan did Mr. Underwood an injustice when he charged him with being tainted with protection. What do these Democrats think now since Mr. Underwood has put himself at the head of the opposition to Speaker Clark's tariff reduction program? The tariff on wool was the camel's nose. The animal is trying to enter the tent. The unmasking of Chairman Underwood will serve a useful purpose if it arouses the Democrats to an understanding of the mistake made in putting Mr. Underwood at the head of the committee, if it solidifies his policy of delay.

"The most effective way to shear him of his power is to change the caucus rules so as to require a public record vote on every question affecting the party's policy. Protection is a nocturnal animal; it shuns the light. A record vote, open to the newspapers, would have enabled Clark to have carried his resolution.

"The caucus rules ought to be changed at once."

St. Louis, Aug. 2.—Mrs. Max Judell, stylishly dressed and living in a fashionable residence district, died here following injuries received when she fell or was thrown from a third-story window of a downtown hotel.

The man left the hotel hurriedly and the woman was found later. Bruises on her arms indicated a struggle, the police say. She had more than $70 in her clothing.

FARMERS' FREE LIST BILL PASSED

Measure is Defeated, 39 to 39 Then Reconsidered.

KERN AMENDMENT IS ADOPTED

It Places Fresh Meats on the Free List From Such Countries as Admit American Farm Products Free. Free Coal Proposition Is Defeated.

Washington, D. C., Aug. 2.—Combined in the same alliance that resulted in the passage of a compromise woolen tariff revision bill in the senate last week, the Democrats and Republican insurgents of that body passed a compromise farmers' free list bill. The original house bill first was defeated and then reoffered in modified form by Senator Kern of Indiana.

As amended and finally adopted, the bill differed but little from the original. The Kern compromise takes fresh meat products out of the free list bill, except such as come from countries that admit certain American farm products duty free. The senate earlier had defeated Senator Bailey's amendment, taking all meats out of the free list bill. The Kern amendment represented the attempt to reconcile the Democratic interests with the insurgent Republicans, who believed some further concessions should be obtained for agricultural products.

Amendments Are Defeated.

The senate began its final struggle on the free list bill with the defeat of amendments offered by Senator Gronna of North Dakota to put lime, cement, coal and coke on the free list and to exempt boots and shoes from its provisions.

Party lines split on the free coal proposition. Those voting for the Gronna amendment were:

Democrats—Bailey, Bryan, Fletcher, Gore, Owen, Hitchcock, Johnson (Maine), Marline, O'Gorman, Pomerene, Watson.

Republicans—Borah, Bristow, Clapp, Brown, Nelson, Crawford, Gamble, Cummins, Kenyon, Dixon, Gronna, McCumber and La Follette.

Senator Bailey's amendment to exempt beef and beef products from the free list received the support of thirteen Republicans, but was opposed by the Democrats except Bailey. It was beaten on a roll call, 63 to 14, those voting for it being Bailey, Borah, Bourne, Bristow, Clapp, Crawford, Cummins, Dixon, Gamble, Heyburn, Jones, Kenyon, La Follette, Townsend.

The adoption of the compromise measure came after a narrow failure of Democratic efforts to pass the bill in its original form. But for the fact that Senator Bailey of Texas refused to support the bill in the shape it had passed the house, the measure would have passed unchanged by the senate. As it was, it was beaten by a tie vote, 39 to 39, Senator Bailey being the only democrat to vote against it.

The Democrats and insurgents were ready for the defeat of the measure. While several of them had voted for it, it was apparently understood that if it was defeated it would be resurrected, amended by a compromise agreement and again brought to a vote. Senator La Follette of Wisconsin, Republican insurgent, who had voted against the passage of the bill, made the motion to reconsider the vote. It carried without a roll call. With the bill restored to life, Senator Kern of Indiana came forward with the compromise agreement.

WHITE CONTINUES STORY

Still Insists He Received Cash for His Vote for Lorimer.

Washington, Aug. 1.—Still insisting that he was paid handsomely as a member of the Illinois legislature for voting for William Lorimer for United States senator, Charles A. White resumed the witness stand before the senate Lorimer committee.

White's testimony followed in outline that given at the first Lorimer investigation by the senate. Attorney Marble for the committee allowed the witness, however, to tell many details not mentioned in that hearing, but published in White's so-called confession in the Chicago Tribune.

Seemingly unperturbed and without qualification, White told of being asked by Lee O'Neil Browne, minority leader in the legislature, to vote for Lorimer, and of being told by Browne that there would be no "chicken feed in it either." He described in detail the alleged payment to him by Browne of $1,000 as "Lorimer money." The witness told what he did with the money, even explaining to the committee that he had only $1.80 in the bank at the time, so he placed $36.20 more on deposit in order to pay some bills.

White rattled off the list of railroad, Pullman and telegraph passes he held as a member of the legislature.

President Simon to Abandon Capital.

Port au Prince, Aug. 2.—The diplomatic corps considers the situation here as desperate and took active measures to prevent serious trouble in the capital when the administration falls, as it apparently must. President Simon, recognizing that resistance is impossible and urged by his advisers, has finally consented to embark under the protection of foreign flags.

SPOKE TO STUDENTS

WEDNESDAY AT NORMAL ON "THE MOTIVE IN EDUCATION."

AN INTERESTING TALK

Prof. Richardson of the Normal Says Pupils Carve Work Along Some Lines, But Dislikes Others.

Prof. Richardson of the department of education of the Normal made a very interesting talk in chapel Wednesday morning on "The Motive in Education."

In introducing his subject he made the illustration that people do not really enjoy eating unless they are hungry, and rebel at being made to eat something which they do not like. The same thing is true in education. The pupils crave work along certain lines, and thoroughly dislike other things. Therefore it is necessary for the teacher to present the essential subjects in such an attractive way that the child's personal feelings will be overcome.

Briefly tracing his outline he spoke first of the kindergarten schools, in which the work consists of games and such things that are to the children really play. The grammar schools come next, and present a more difficult problem to the teachers as the pupils' interest is largely in the things outside the school room. And this is as it should be, for nature uses this period in the child's life for growth and development, requiring outdoor exercise and amusements.

The interest of the high school students is all self-centered. They are studying themselves, feeling for new things, trying everything for the purpose of selecting that which is most suitable for them. Having, to a large extent, found their interests by the end of the high school course, the students fill their college life with social interests, and then go to the universities, where the vocational interests develop them along their respective line of business.

In speaking further of the manner in which work is done, Mr. Richardson said that the drudgery of work makes a toiler, and a toiler is a slave The man who works with interest enjoys his work and is a free man, but the man who does his work spontaneously and intuitively makes that work play, and a player is an artist. And the artist, because of his love for his work and the spirit in which he does it, gives the most to the world.

Had Guests from Ohio.

Misses McCann of Zanesville, O., spent Tuesday in Maryville as the guests of Mr. and Mrs. O. L. Holmes. The young ladies are teachers in the schools of Zanesville and are nieces of Prof. R. E. They are taking a vacation trip of a month in towns of Iowa and Missouri and stopped in Maryville at the request of their uncle, who had told them many fine things about Maryville. They enjoyed their day's visit in the city and a ride over the city, and left Tuesday evening, declaring that "the half had not been told." They said Maryville was the prettiest town that they had visited.

CAPITOL BONDS WIN

REPORTS SHOW A SAFE MAJORITY FOR THE STRUCTURE.

5 TO 1 IN NODAWAY CO.

Maryville Gives a Big Majority, as Did Also Some of the Other Precincts —Reports from Over the State.

Missouri voted Tuesday to build a new state capitol. The vote was not as heavy as it might easily have been, and the returns are far from complete, but on the returns available early this morning there does not seem to be a remote chance that the strong lead for the bonds can be upset.

Returns from sixty-six counties and the city of St. Louis, complete and incomplete, give 91,449 for the bonds and 23,741 against the bonds. The returns from the larger cities are complete and a few of the counties, particularly in Western Missouri, are complete. Keeping in mind that one vote "no" counts as much as two votes "yes," the fact that there is a margin of nearly four to one for the bonds with much more than half the total vote reported means that while the majority in favor of the bonds will be reduced somewhat, they hardly can be defeated by any returns yet to be received.

The voting of these bonds probably will end for all time the talk of capital removal, which has been the nightmare of Jefferson City people for a generation. Only last winter there were men in Jefferson City worrying over the possible removal of the capital who could not remember when their fathers' faces did not grow long and solemn at the suggestion that the legislature was getting ready to move the capital elsewhere. Jefferson City can grow now and be sure that this generation will not see the capital located in some rival town. It needed that kind of waking up and out of its fights to hold the capital Jefferson City has done a good deal to make itself a modern city of the smaller class. By the time the capitol is finished it ought to be a city of 20,000 or more population.

Very little interest was manifested in the capitol bond election held in the county Tuesday, only a light vote being cast. The total vote cast in the county was 1,989, 1,657 being for the bond issue and 332 against, or 5 to 1 in favor.

In Polk township and Maryville, a vote of 463 for and 94 against was polled.

Monroe township had the largest vote against the proposition, there being 59 votes against as to 96 for. We understand the reason for the vote in Monroe township was due to a letter recently issued over there against the bond issue.

In White Cloud, both north and south precincts, only one vote was cast against the issue.

In Washington, East precinct, eleven votes were cast, all being for the bond issue.

The vote by precincts over the county follows:

	Yes	No
Atchison	75	6
Hopkins	94	17
Independence South	63	6
Independence North	31	5
Jackson	96	21
Jefferson, North	47	4

POLITICAL NOTES.

(By Democratic Publicity Bureau.)

President Taft gives the Democrats in congress credit for the reciprocity bill. Sure thing; the only folks working at constructive legislation are Democrats. The Republican statesmen are troubled with the hookworm.

* * *

When divisions Nos. 1 and 2 of the state supreme court adjourned for the summer, division No. 3 refused to take a vacation. The latest opinion handed down by Judge Hadley through his official clerk, the Globe-Democrat correspondent, is that the redistricting of the state into senatorial districts by Roach, Majors and Hadley will not stand hitched, because the governor refused to obey the law. That is pretty rough on Herbert.

* * *

The American housewife, because of a needless tariff, pays tribute to the sugar trust of two cents on every pound of sugar she buys at the corner grocery, according to Claus Augustus Spreckel, president of the Federal Sugar Refining company, and he ought to know. And remember, please, that extortion is extracted from the pocket of the consumer by the grace of the Republican party.

* * *

The Democrats make good again. This time they put a publicity bill through congress that really amounts to something. Under the terms of this measure contributions and expenses of all general elections must be published by the individual or committee before the election, not afterward. Candidates for either branch of congress cannot spend more than 10 cents for each voter in his district or state, and a maximum of $10,000 is placed on senatorial candidates.

NO MORE DANDRUFF.

The Koch Pharmacy Sells the Remedy That is Guaranteed to Kill All Dandruff Germs.

Of course you and every intelligent reader of The Democrat-Forum knows that dandruff is caused by a germ.

Dr. Sagerbund, the great French physician, proved this beyond a doubt.

In order to rid your scalp of filthy dandruff you must kill the germ. There is a hair-dressing called Parisian Sage which is now sold in every town in America, that is guaranteed to eradicate dandruff, stop falling hair, splitting hair and scalp itch in two weeks, or money back.

If you have dandruff get a large 50 cent bottle today and rid yourself of it. Remember that if dandruff germs are not destroyed in time the hair will surely fall out and baldness will follow.

Here's proof of what Parisian Sage has done; it will do more. It is the finest hair grower and hair dressing in the world, and people who use it regularly will never grow bald. Mrs. John Stoner, Evansville, Ind., writes on June 2, 1910:

"I used Parisian Sage and found it very successful; it removes dandruff and gives the hair life. I only used two bottles. I know it is a cure for dandruff."

Large bottles 50 cents at the Koch Pharmacy and druggists everywhere. The girl with the Auburn hair is on every carton.

M. Nusbaum went to Lincoln, Neb., Wednesday morning for a few days' visit.

Miss Elsa Griffith and Miss Nettie Clark of Burlington Junction were the guests of Misses Marie and Helen Grober of Maryville Friday.

Miss Pauline Glenihue left for her home in Kansas City Monday. She has for some time been the guest of her cousin, Miss Catherine Bently of this city.

Mrs. S. L. Williams and children went to St. Joseph Wednesday morning for a few days' visit.

Col. Charles Talbott of Graham was in the city Wednesday.

MAN ENTOMBED IN MINE IS ALIVE

Feasts on Fried Chicken and Jokes With Friends.

NOT YET OUT OF DANGER.

Shaft Will Probably Be Sunk Before Water Has Reached His Face. Fourth Hole Drilled Into Working Penetrates Drift Near Him.

Joplin, Mo., Aug. 2.—Entombed seventy-eight feet below the surface of the earth, facing a possible death from the rapidly rising water in the mine drift, Joseph Clary, the young miner caught by a cave-in at the White Oak mine here, feasted on fried chicken and joked with friends who are waiting for his rescue.

The fourth drill hole put down in an attempt to reach his prison penetrated the roof of the limestone.

"Hello," his brother-in-law, Maurice Grafton, called down the hole when the bits had been removed.

"Hello boys! I'm hungry," came the clear but faint reply.

Then Thomas Clary, father of the entombed miner, hastened to his home where the young man's mother was prostrated from grief and told her the young man was still alive. The news, the doctors say, has saved her life.

From his home the father, one of the oldest prospectors in this district, hurried back to the mine, carrying milk and stimulants, which were lowered on a piece of rope to his son. After drinking these Clary seemed much stronger and remained near the drill hole talking with those at the top.

"See any shines in the drill cuttings?" he questioned, meaning to ask whether the drillers had found any evidence of zinc in cutting the hole through the earth to his prison. He seemed disappointed when told him no one had noticed whether the drill had gone through any ore.

"I haven't worried any, though it has been a long while," he said, "for I knew that you were after me. The water has been rising fast in here and it is about waist deep in some places now. I don't believe it will get much higher, for this is dry ground."

The ground where the mine is located is known as "dry ground" and it has never been necessary to use a pump to keep the water out of the drifts, while work was going on. This fact lends encouragement to those who are working to sink a rescue shaft to the drift. If, however, the shaft is not down to the drift within two or three days it may be too late to bring the young man out alive.

FERRY SINKS; SEVEN DROWN

Vessel Capsizes and Hurls Its 75 Passengers Into Water.

Massena, N. Y., Aug. 2.—Seven persons were drowned in the St. Lawrence river when the ferry steamer Sirus struck a shoal eight miles below this city, capsized and hurled its seventy-five passengers into the water. Four bodies have been recovered.

The victims whose bodies were recovered were: Misses Hattie and Nellie Parker, sisters, of Ogdensburg, Miss.; Miss Ada Dewey and Floyd Hackett, both of Massena.

The identity of three persons who, according to the captain's tally, are missing, is not known.

Women Mob Editor.

Danville, Ill., Aug. 2.—Frank H. Guthneck, editor of the Record, published at Westville, was mobbed by women who were enraged over references made to them and their daughters in his paper. After the editor's spectacles had been smashed he drew a revolver and by threatening to shoot, escaped to the home of a friend, whence he demanded protection from the sheriff. He was escorted to this city by deputies.

Two Killed When Train Hits Auto.

Cleveland, Aug. 2.—Two women were killed and a man probably fatally injured when an Erie passenger train running sixty miles an hour struck an automobile on a crossing at North Randall. The dead are Miss Louise Snow of Cleveland and Miss Margaret Tuller of Chicago. Donald French, the driver of the machine, has a broken shoulder and serious internal injuries.

Beer Inquiry Is Unanswered.

Washington, Aug. 2.—Dr. Harvey W. Wiley's board of food and drug inspection concluded its hearing on the question, "What is beer?" and, somewhat unenlightened, will continue to gather information from chemists and brewing experts before announcing a decision.

Fire in Mississippi Asylum.

Jackson, Miss., Aug. 2.—Fire broke out in the female ward at the Mississippi insane hospital and spread to the negro male ward. No deaths have been reported, but many inmates have escaped and are roaming at large.

Speeding Aeroplane Rams Grandstand.

Valencia, Spain, Aug. 2.—A speeding aeroplane rammed the grandstand at the aerodrome here, causing the collapse of a portion of the stand. Twelve spectators were injured. The aviator escaped unharmed.

NEW PIANO HOUSE HOME INSTITUTION

Two Old Maryville Boys Interested In Distributing House Here
Two Carloads Pianos And Player Pianos Already Received

Maryville at last occupies its rightful place on the piano map of Northwest Missouri. Formerly Nodaway County piano buyers thought it necessary on account of the limited stocks carried here, to go to St. Joseph or Kansas City. Maryville will now become the logical center for this large trade. The new piano store of Field & Lippman, on West Third Street (next door to Alderman's) will carry a stock as complete as any store in the country. While the stock will not be as large as is carried in the big St. Louis six story warehouse, yet the variety will be just as great. Buyers will here find pianos that appeal to every taste, and at prices to suit every pocket book, from $100 to $1200. The Field-Lippman Company, in addition to its Maryville store, has stores in St. Louis and Sedalia, Mo., Dallas, Fort Worth, Austin, San Antonio and Houston, Texas. These numerous stores necessarily dispose of large numbers of pianos, increasing the buying capacity of the Field-Lippman Company to a point very close to manufacturing cost. Maryville and Nodaway County folks will—by buying their pianos at home, from Field-Lippman—make a number of savings; first, freight and drayage; second, time saved in shipment from other cities; third, the very large saving made possible by the big buying power of the Field-Lippman Company. It is our intention to make Maryville the distributing point for all pianos sold in Northwest Missouri and Eastern Kansas. It is our ambition to establish a DISTINCTIVELY MARYVILLE INSTITUTION—an institution that will not only reflect credit on the city, but will spend money with local newspapers and merchants. Our manager, Mr. P. F. Rowlison, will make his home in Maryville, and all other employees, even road salesman, will do likewise. All supplies will be purchased here whenever possible, and every effort made to identify our house with the progress of Maryville. We think such a concern deserves Maryville and Nodaway County patronage, and we believe the people of this city and county will accord us the recognition that a live, up-to-date piano house satisfied with a reasonable profit, is entitled to. Some persons have an erroneous idea regarding the profits made by piano houses in general. Speaking for the Field-Lippman Company, we wish to say that we are highly gratified when our business shows a net profit of 6 per cent.

O. A. FIELD, President.

Oscar A. Field started at the bottom of the ladder as shipping clerk for the company, it being the intention of his father, O. A. Field, Sr., who founded the company, that his son should have an intimate knowledge of every detail and branch of the business, thus proving a worthy successor of himself.

In accordance with this plan Mr. Field served an apprenticeship in every department of the business, and upon his father's death was elected secretary. When the Field-Lippman interests acquired complete control of the business, Mr. Field was chosen for president.

During his occupation of this office he has made many friends among piano dealers, as an evidence of which he was elected vice president of the National Association of Piano Merchants of America at their annual meeting held in Chicago, June 3-10, 1911.

As Mr. Field is only 25 years old he is the youngest man who has ever filled this office.

Mr. Field's career is a striking illustration of the possibilities open to young men in business in this hustling age.

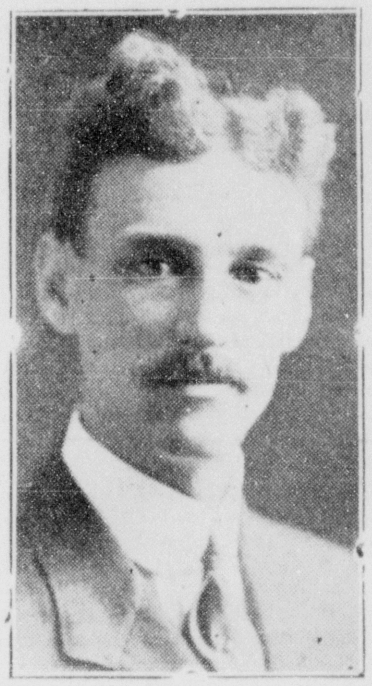
WM. A. LIPPMAN, Sec. and Treas.

William A. Lippman, secretary and treasurer, comes from the old Lippman family of Maryville, being the son of Mr. and Mrs. Charles Lippman. His first business experience was with H. T. Crane, the jeweler, he being afterward connected with the firm of N. Sisson & Son. From there he went to the Vinsonhaler Shoe company of St. Louis, where he obtained business experience of much value.

In November, 1904, he took charge of the credit and collection department of the Jesse French piano company, and from that time on, by successive stages, advanced to his present position of secretary and treasurer.

In addition to these offices Mr. Lippman shares in the management of the company with Mr. O. A. Field, the president.

In addition to his well known executive ability, Mr. Lippman possesses the happy faculty of selecting capable assistants—men who cannot only execute his plans and ideas, but who can do creative work themselves. Every employee of the Field-Lippman Company must do things.



CHAS. F. LIPPMAN, Sales Manager.

Mr. Charles F. Lippman, sales-manager of the St. Louis division, is also a product of Maryville, being a brother of William A. Lippman. He has been connected with the company for about six years and is an able lieutenant to O. A. Field and William A. Lippman.

Mr. Lippman is, like his brother and Mr. Field, a product of the school of experience, having served in every department of the business previous to succeeding Mr. W. A. Lippman as sales manager.

Under the sales manager are some of the cleverest piano sales experts in America, Field-Lippman salesmen being known everywhere as high priced men. It takes executive ability of a high order to handle such an organization, and Mr. Lippman's popularity with the entire force is conclusive evidence of the correctness of his methods.

This well organized and equipped sales force, backed by intelligent executive support is a powerful agent for selling the large output annually contracted for by Field-Lippman.

THE FIELD-LIPPMAN LINE

PIANOS

Field-Lippman	$450
Kranich & Bach	$425
Behning	$400
Hobart M. Cable	$325
Lorraine	$200

THE KRANICH & BACH $425

With the utmost enthusiasm we recommend this superb instrument and welcome its comparison with any other piano made, particularly of the highest class, in which the Kranich & Bach rightfully belongs.

Kranich & Bach have been making pianos for fifty years and there are now in use over 50,000 of their pianos—EVERY ONE GIVING SATISFACTION.

Upon request we will send you a Kranich & Bach catalog. This catalog is fully entitled to your careful consideration, and explains more in detail than an advertisement could, some of the special features of the Kranich & Bach Piano. Special attention is directed to the fact that Kranich & Bach pianos are made by Messrs. Kranich & Bach, under the personal supervision of the two men themselves.

What is the result of this? The production of a perfect instrument made of the best and highest priced materials—made by the highest salaried and most talented workmen, workmen who love their work—the entire process of construction jealously watched over and guarded by those two men, musicians, themselves, with their souls in the work—with a reputation gained by fifty years unserving fidelity to an ideal—fifty years of work—fifty years of achievement.

It would gratify us exceedingly if we could present this superb piano to you in our warerooms. It will more than substantiate all that we have claimed for it.

The terms quoted are net cash, but we will be glad to arrange a payment plan to meet your views. The payment price is the same as the cash price except that 6 per cent interest is charged on deferred payments, the usual banking rate of interest.

The Field-Lippman $450

In the artistic instrument which bears our firm name is embodied the combined expert piano knowledge of this organization of piano men, some of them with a quarter century's experience. The Field-Lippman Piano combines the best material money can buy with the most skilled artisanship obtainable. We give with it a ten-year written guarantee, behind which stands the firm name, reputation and financial standing of America's foremost piano house.

PLAYER PIANOS

Kranich & Bach	$850
Behning	$650
Hobart M. Cable	$700
Lorraine	$450

THE HOBART M. CABLE $325

So many colleges and schools have adopted the Hobart M. Cable that it has come to be popularly known as "The College Piano."

That this compliment is deserved is clearly shown by the letters from the faculty of the numerous colleges where the Hobart M. Cable Piano has been in use.

It will be conceded that a piano that can undergo a year's continuous practice—six hours daily—in a musical conservatory, and retain its original freshness of tone, had demonstrated both tonal quality and soundness of construction.

This was the experience of Dr. Carl Beutel, director of music Union University, Jackson, Tenn., with twelve Hobart M. Cable Pianos—the Doctor's letter in which he highly recommends the Hobart M. Cable is printed in full in their 55-page illustrated catalogue.

There are other letters in their catalogue from college authorities and musicians that are pertinent and interesting; in addition to these the catalogue supplies such complete information regarding the interior construction of the Hobart M. Cable Piano, that the careful reading of these facts will enable one to intelligently consider the merits of this high-class instrument. The catalogue is mailed free upon application.

Opening Sale of Low Priced High Grade Pianos

At certain periods of the year we hold sales of "Rebuilt" or used pianos. These instruments are taken as part payment for new pianos and are sold for the amount we allow for them, to which is added the slight sum expended in putting them in first class condition. We have not had a sale since March, and one of our entire floors is now filled with "Rebuilt" pianos.

It occurred to us that it would be a good plan to introduce ourselves to Maryville folks by a big sale of "Rebuilt" pianos—a **veritable feast of low prices,** and **high grade** pianos.

READ THESE PRICES:

Kimball, Ebony case.....$ 95	**Vose, Ebony case.....$120**	**Windsor, Mahogany case.....$135**	**Starr, Mahogany case.....$160**
New England, Ebony case.....$100	**Schiller, Mahogany case.....$130**	**Jesse French, Mahogany case....$145**	**Richmond, mahogany case.....$180**

Final and convincing proof of the true piano value offered you in our "Rebuilt" pianos. We accept them as part payment for new pianos—AT FULL PRICE PAID—any time within three years. You are cordially invited to call and make the acquaintance of Mr. P. F. Rowlison, our manager—he will be glad to show you the biggest stock of pianos ever shown in Maryville, New and "Rebuilt." If you contemplate buying within a year you should buy now—you will never get a piano cheaper—never get better values. Come whether you buy or not, we will be glad to see you.

We Guarantee Our Player Piano Mechanism Five Years

Other Dealers Limit Their Guarantee to One Year

But we prove the faith that is in us by making our guarantee for five years on any player-piano sold by this house.

This five-year guarantee applies not only to the piano, but to the player mechanism—that is where we differ from every other dealer in America.

Other dealers will guarantee the piano part of your player-piano for five years, but if you read the guarantee offered you will find that the player mechanism is only guaranteed for one year.

Our written guarantee covers both piano and player mechanism for five years.

Since the manufacture of player-pianos has been undertaken by piano builders of known ability the player-piano has advanced from the mechanical to the "Human" class. Such players as the Kranich & Bach Behning, Hobart M. Cable and Lorraine, with their wonderful tempo and phrasing devices, make possible the expression of every human emotion—every hope—every thought—every mood.

You are cordially invited to the largest and most completely equipped music parlors in Maryville. The biggest library in the city of up-to-date ragtime, musical comedy and classical rolls. Our expert demonstrators will be glad to play them for you—we would like you to play them—they are at your disposal.

Your old piano taken as part payment—reasonable terms for the balance—if you cannot call, write for beautiful illustrated catalog, stating which player you are interested in. Every player-piano mechanism guaranteed five years.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair Is First Sign of Age, Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

BRYAN ATTACKS UNDERWOOD

Commoner Renews Charges that Floor Leader is Protectionist.

ASKS CHANGE IN CAUCUS RULE

Says Record Vote Would Have Made It Impossible for Him to Have Thwarted Speaker Clark's Tariff Reduction Program.

Lincoln, Neb., Aug. 2.—W. J. Bryan says in this week's Commoner:

"The action of Chairman Underwood in opposing an immediate effort to reduce the iron and steel schedule reveals the real Underwood. Speaker Clark and other tariff reformers tried to secure the passage of a resolution instructing the ways and means committee to take up other schedules, including the iron and steel schedule, but Underwood and Fitzgerald of New York, the Fitzgerald who saved Cannon in the last congress, succeeded in defeating the resolution. Mr. Kitchen, a member of the committee, reminded Mr. Underwood that he had told the country that all his worldly goods were tied up in the iron and steel industry and that a failure to report a bill covering that schedule might be attributed to his connection with the business, but even this did not move him.

"Some of the Democrats thought Mr. Bryan did Mr. Underwood an injustice when he charged him with being tainted with protection. What do these Democrats think now since Mr. Underwood has put himself at the head of the opposition to Speaker Clark's tariff reduction program? The tariff on wool was the camel's nose. The animal is trying to enter the tent. The unmasking of Chairman Underwood will serve a useful purpose if it arouses the Democrats to an understanding of the mistake made in putting Mr. Underwood at the head of the committee, if it solidifies his policy of delay.

"The most effective way to shear him of his power is to change the caucus rules so as to require a public record vote on every question affecting the party's policy. Protection is a nocturnal animal; it shuns the light. A record vote, open to the newspapers, would have enabled Clark to have carried his resolution.

"The caucus rules ought to be changed at once."

FARMERS' FREE LIST BILL PASSED

Measure is Defeated, 39 to 39 Then Reconsidered.

KERN AMENDMENT IS ADOPTED

It Places Fresh Meats on the Free List From Such Countries as Admit American Farm Products Free. Free Coal Proposition Is Defeated.

Washington, D. C., Aug. 2.—Combined in the same alliance that resulted in the passage of a compromise woolen tariff revision bill in the senate last week, the Democrats and Republican insurgents of that body passed a compromise farmers' free list bill. The original house bill first was defeated and then reoffered in modified form by Senator Kern of Indiana.

As amended and finally adopted, the bill differed but little from the original. The Kern compromise takes fresh meat products out of the free list bill, except such as come from countries that admit certain American farm products duty free. The senate earlier had defeated Senator Bailey's amendment, taking all meats out of the free list bill. The Kern amendment represented the attempt to reconcile the Democratic interests with the insurgent Republicans, who believed some further concessions should be obtained for agricultural products.

Amendments Are Defeated.

The senate began its final struggle on the free list bill with the defeat of amendments offered by Senator Gronna of North Dakota to put lime, cement, coal and coke on the free list and to exempt boots and shoes from its provisions.

Party lines split on the free coal proposition. Those voting for the Gronna amendment were:

Democrats—Bailey, Bryan, Fletcher, Gore, Owen, Hitchcock, Johnson (Maine), Marline, O'Gorman, Pomerene, Watson.

Republicans—Borah, Bristow, Clapp, Brown, Nelson, Crawford, Gamble, Cummins, Kenyon, Dixon, Gronna, McCumber and La Follette.

Senator Bailey's amendment to exempt beef and beef products from the free list received the support of thirteen Republicans, but was opposed by the Democrats except Bailey. It was beaten on a roll call, 63 to 14, those voting for it being Bailey, Borah, Bourne, Bristow, Clapp, Crawford, Cummins, Dixon, Gamble, Heyburn, Jones, Kenyon, La Follette, Townsend.

The adoption of the compromise measure came after a narrow failure of Democratic efforts to pass the bill in its original form. But for the fact that Senator Bailey of Texas refused to support the bill in the shape it had passed the house, the measure would have passed unchanged by the senate. As it was, it was beaten by a tie vote, 39 to 39, Senator Bailey being the only democrat to vote against it.

The Democrats and insurgents were ready for the defeat of the measure. While several of them had voted for it, it was apparently understood that if it was defeated it would be resurrected, amended by a compromise agreement and again brought to a vote. Senator La Follette of Wisconsin, Republican insurgent, who had voted against the passage of the bill, made the motion to reconsider the vote. It carried without a roll call. With the bill restored to life, Senator Kern of Indiana came forward with the compromise agreement.

WHITE CONTINUES STORY

Still Insists He Received Cash for His Vote for Lorimer.

Washington, Aug. 1.—Still insisting that he was paid handsomely as a member of the Illinois legislature for voting for William Lorimer for United States senator, Charles A. White resumed the witness stand before the senate Lorimer committee.

White's testimony followed in outline that given at the first Lorimer investigation by the senate. Attorney Marble for the committee allowed the witness, however, to tell many details not mentioned in that hearing, but published in White's so-called confession in the Chicago Tribune.

Seemingly unperturbed and without qualification, White told of being asked by Lee O'Neil Browne, minority leader in the legislature, to vote for Lorimer, and of being told by Browne that there would be no "chicken feed in it either." He described in detail the alleged payment to him by Browne of $1,000 as "Lorimer money." The witness told what he did with the money, even explaining to the committee that he had only $1.80 in the bank at the time, so he placed $36.20 more on deposit in order to pay some bills.

White rattled off the list of railroad, Pullman and telegraph passes he held as a member of the legislature.

President Simon to Abandon Capital.

Port au Prince, Aug. 2.—The diplomatic corps considers the situation here as desperate and took active measures to prevent serious trouble in the capital when the administration falls, as it apparently must. President Simon, recognizing that resistance is impossible and urged by his advisers, has finally consented to embark under the protection of foreign flags.
